Disclosures

Safe harbor statement

This presentation includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 related to Insight’s plans and expectations. Statements that are not historical facts, including statements about future trends in the IT market and our opportunities for growth, are forward-looking statements. These forward-looking statements are subject to assumptions, risks and uncertainties which could cause actual results or future events to differ materially from such statements. The Company undertakes no obligation to update publicly or revise any of the forward-looking statements, except as otherwise required by law. More detailed information about risk factors is in today’s press release and discussed in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Non-GAAP measures

This presentation will reference certain non-GAAP financial information as ‘Adjusted’. A reconciliation of non-GAAP financial measures presented in this document to our actual GAAP results is attached to back of this presentation and included in the press release issued today, which you may find on the Investor Relations section of our website at investor.insight.com.

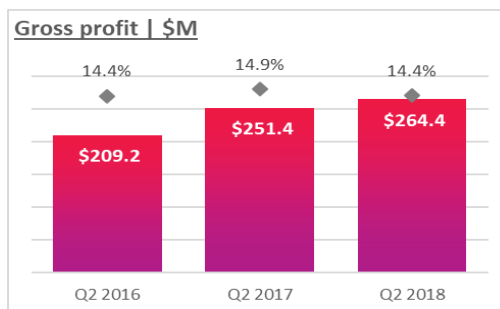

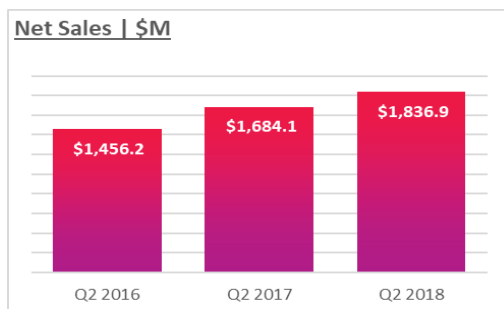

Constant currency

In some instances the Company refers to changes in net sales, gross profit and earnings from operations on a consolidated basis and in North America, EMEA and APAC excluding the effects of fluctuating foreign currency exchange rates. In computing these changes and percentages, the Company compares the current year amount as translated into U.S. dollars under the applicable accounting standards to the prior year amount in local currency translated into U.S. dollars utilizing the weighted average translation rate for the current period.

Cardinal Acquisition Update

- Expertise in mobile app development, IoT, and cloud enabled BI
- 450 technical sales and service delivery teammates
- Expect to acquire for ~\$79M (net of cash acquired, subject to a final working capital adjustment)

Digital Innovation - Transportation

Drone rail inspection program

Problem

- Client wanted to improve rail safety by automating detection and alerts of track issues utilizing their BVLOS (beyond visual line of sight) drone program

Solution

- Created a near-real-time visual imagery anomaly detection solution for their unmanned military-style UAV drone rail inspection program
- Solution included a secure, scalable, automated, cost-effective mechanism to ingest data from IoT edge devices, directly into the centralized repository
- Built a scalable IoT and data architecture solution in the cloud
- Created administration friendly process for updating and extending IoT Edge devices in the field

Closing Comments – 2018 Outlook

- 2018 sales expected to grow in the high-single to low double digit range
- Adjusted diluted earnings per share are expected to be between \$4.50 and \$4.60 per share for the full year
- Effective tax rate expected between 26% and 27% for the balance of the year
- Cash flow from operations expected to be between \$180 and \$220 million for the full year
- Capital Expenditures expected between \$15 and \$20 million for the full year
- Assumes average share count of approximately 36.0 million shares
- Does not reflect additional share repurchases under current authorization
- Does not include severance, restructuring or acquisition expenses*

** Due to the inherent difficulty of forecasting these types of expenses, which impact net earnings and diluted earnings per share, the Company is unable to reasonably estimate the related impact of such expenses, if any, to net earnings and diluted earnings per share. Accordingly, the Company is unable to provide a reconciliation of GAAP to non-GAAP diluted earnings per share for the full year 2018 forecast.*
