FORWARD-LOOKING INFORMATION

References to "the Company," "Insight," "we," "us," "our" and other similar words refer to Insight Enterprises, Inc. and its consolidated subsidiaries, unless the context suggests otherwise. Certain statements in this Quarterly Report on Form 10-Q, including statements in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part I, Item 2 of this report, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may include: expectations regarding net sales, gross profit, gross margin, operating expenses, earnings from operations, non-operating income and expenses, net earnings or cash flows, cash needs and the payment of accrued expenses and liabilities; the expected effects of seasonality on our business; expectations of further consolidation in the Information Technology ("IT") industry; our intentions concerning the payment of dividends; our acquisition strategy; projections of capital expenditures; the sufficiency of our capital resources, the availability of financing and our needs and plans relating thereto; the estimated effect of new accounting principles and expected dates of adoption; the effect of indemnification obligations; projections about the outcome of ongoing tax audits; expectations regarding future employee termination benefits; estimates regarding future asset-retirement activities; adequate provisions for and our positions and strategies with respect to ongoing and threatened litigation; our expectations regarding the use of cash flow from operations for working capital, to pay down debt, repurchase shares of our common stock, make capital expenditures and fund acquisitions; our expectations regarding stock-based compensation and future income tax expense; our compliance with leverage ratio requirements; our exposure to off-balance sheet arrangements; statements of belief; and statements of assumptions underlying any of the foregoing. Forward-looking statements are identified by such words as "believe," "anticipate," "expect," "estimate," "intend," "plan," "project," "will," "may" and variations of such words and similar expressions and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. There can be no assurances that results described in forward-looking statements will be achieved, and actual results could differ materially from those suggested by the forward-looking statements. Some of the important factors that could cause our actual results to differ materially from those projected in any forward-looking statements include, but are not limited to, the following, which are discussed in "Risk Factors" in Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2018:

- actions of our competitors, including manufacturers and publishers of products we sell;
- our reliance on our partners for product availability, competitive products to sell and marketing funds and purchasing incentives, which can change significantly in the amounts made available and the requirements year over year;
- changes in the IT industry and/or rapid changes in technology;
- risks associated with the integration and operation of acquired businesses;
- possible significant fluctuations in our future operating results;
- the risks associated with our international operations;
- general economic conditions;
- increased debt and interest expense and decreased availability of funds under our financing facilities;
- the security of our electronic and other confidential information;
- disruptions in our IT systems and voice and data networks;
- failure to comply with the terms and conditions of our commercial and public sector contracts;
- legal proceedings client audits and failure to comply with laws and regulations;
- accounts receivable risks, including increased credit loss experience or extended payment terms with our clients;
- our reliance on independent shipping companies;
- our dependence on certain key personnel;

INSIGHT ENTERPRISES, INC.

- natural disasters or other adverse occurrences;
- exposure to changes in, interpretations of, or enforcement trends related to tax rules and regulations; and
- intellectual property infringement claims and challenges to our registered trademarks and trade names.

Additionally, there may be other risks that are otherwise described from time to time in the reports that we file with the Securities and Exchange Commission. Any forward-looking statements in this report should be considered in light of various important factors, including the risks and uncertainties listed above, as well as others. We assume no obligation to update, and, except as may be required by law, do not intend to update, any forward-looking statements. We do not endorse any projections regarding future performance that may be made by third parties.

(unaudited)

1. Basis of Presentation and Recently Issued Accounting Standards

We empower organizations of all sizes with Insight Intelligent Technology Solutions™ to maximize the business value of IT in North America; Europe, the Middle East and Africa ("EMEA"); and Asia-Pacific ("APAC"). As a Fortune 500-ranked global provider of digital innovation, cloud/data center transformation, connected workforce, and supply chain optimization solutions and services, we help clients innovate and optimize their operations to run smarter. Our company is organized in the following three operating segments, which are primarily defined by their related geographies:

<u>Operating Segment</u>	<u>Geography</u>
North America	United States and Canada
EMEA	Europe, Middle East and Africa
APAC	Asia-Pacific

Our offerings in North America and certain countries in EMEA and APAC include hardware, software and services. Our offerings in the remainder of our EMEA and APAC segments consist of largely software and certain software-related services.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments necessary to present fairly our financial position as of March 31, 2019 and our results of operations for the three months ended March 31, 2019 and 2018 and cash flows for the three months ended March 31, 2019 and 2018. The consolidated balance sheet as of December 31, 2018 was derived from the audited consolidated balance sheet at such date. The accompanying unaudited consolidated financial statements and notes have been prepared in accordance with the rules and regulations promulgated by the Securities and Exchange Commission and consequently do not include all of the disclosures normally required by United States generally accepted accounting principles ("GAAP").

The results of operations for interim periods are not necessarily indicative of results for the full year, due in part to the seasonal nature of our business. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the related notes thereto, in our Annual Report on Form 10-K for the year ended December 31, 2018. Our results of operations include the results of Cardinal Solutions Group, Inc. ("Cardinal") from its acquisition date of August 1, 2018.

The consolidated financial statements include the accounts of Insight Enterprises, Inc. and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Additionally, these estimates and assumptions affect the reported amounts of net sales and expenses during the reporting period. Actual results could differ from those estimates. On an ongoing basis, we evaluate our estimates, including those related to sales recognition, anticipated achievement levels under partner funding programs, assumptions related to stock-based compensation valuation, allowances for doubtful accounts, valuation of inventories, litigation-related obligations, valuation allowances for deferred tax assets and impairment of long-lived assets, including purchased intangibles and goodwill, if indicators of potential impairment exist.

Recently Issued Accounting Standards

Effective January 1, 2019, we adopted the Financial Accounting Standards Board's ("FASB") Accounting Standard Update ("ASU") No. 2016-02—*Leases (Topic 842)*, as of January 1, 2019, using the effective date transition method. This approach provides a method for recording existing leases at adoption without restating comparative periods. We elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allowed us to carry forward the historical lease classification. In addition, we made an accounting policy election not to separate non-lease components from lease components for all existing classes of underlying assets with the exception of land and buildings. We also made an accounting policy election to not record right of use ("ROU") assets and lease liabilities for leases with an initial term of twelve months or less on our consolidated balance sheet.

Adoption of the new standard resulted in the recording of additional net operating lease ROU assets and lease liabilities of \$65,922,000 and \$70,512,000, respectively, as of January 1, 2019. The difference between the additional lease assets and lease liabilities reflected existing accrued and prepaid rent balances that were reclassified to the operating lease ROU asset at January 1, 2019. The standard did not materially impact our consolidated net earnings and had no impact on cash flows.

There have been no other material changes in or additions to the recently issued accounting standards as previously reported in Note 1 to our Consolidated Financial Statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2018 that affect or may affect our current financial statements.

2. Leases

We lease office space, distribution centers, land, vehicles and equipment. Lease agreements with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term.

Certain lease agreements include one or more options to renew, with renewal terms that can extend the lease term from one to five years or more. The exercise of lease renewal options is at our sole discretion. Some agreements also include options to purchase the leased property. The estimated life of assets and leasehold improvements are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Certain of our lease agreements include rental payments adjusted periodically for inflation. Our lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Significant Accounting Policy

We determine if a contract or arrangement is, or contains a lease at inception. Balances related to operating leases are included in other assets, other current liabilities, and other liabilities in our consolidated balance sheet. Balances related to financing leases are included in property and equipment, current portion of long-term debt, and long-term debt in our consolidated balance sheet. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease.

Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. We use the implicit rate

(unaudited)

when readily determinable. The operating lease ROU asset includes any prepaid lease payments and additional direct costs and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option.

The following table provides information about the financial statement classification of our lease balances reported within the consolidated balances sheets as of March 31, 2019 and January 1, 2019 (in thousands):

The following table provides other information related to leases for the three months ended March 31, 2019 (in thousands):

	Three months ended March 31, 2019
Cash paid for amounts included in the measurement of lease liabilities:	
Operating cash flows from operating leases	\$ 4,457
Leased assets obtained in exchange for new finance lease liabilities	—
Leased assets obtained in exchange for new operating lease liabilities	1,768

Operating Leases pre-Topic 842 adoption:

We have non-cancelable operating leases with third parties, primarily for administrative and distribution center space and computer equipment. Our facilities leases generally provide for periodic rent increases and many contain escalation clauses and renewal options. We recognize rent expense on a straight-line basis over the lease term. Rental expense for these third-party operating leases was \$20,114,000, \$19,126,000 and \$14,444,000 in 2018, 2017 and 2016, respectively, and is included in selling and administrative expenses in the accompanying consolidated statements of operations.

2023 and thereafter		2,667	2,667
Total remaining performance obligations	<u>\$ 15</u>	<u>\$ 129,871</u>	<u>\$ 129,886</u>

With the exception of remaining performance obligations associated with our OneCall Support Services contracts which are included in the table above regardless of original duration, remaining performance obligations that have original expected durations of one year or less are not included in the table above. Amounts not included in the table above have an average original expected duration of nine months. Additionally, for our time and material services contracts, whereby we have the right to consideration from a client in an amount that corresponds directly with the value to the client of our performance completed to date, we recognized revenue in the amount to which we have a right to invoice as of March 31, 2019 and do not disclose information about related remaining performance obligations in the table above. Our time and material contracts have an average expected duration of 14 months.

The majority of our backlog historically has been and continues to be open cancelable purchase orders. We do not believe that backlog as of any particular date is predictive of future results, therefore we do not include performance obligations under open cancelable purchase orders, which do not qualify for revenue recognition, in the table above.

4. Net Earnings Per Share ("EPS")

Basic EPS is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding during each period. Diluted EPS is computed on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding restricted stock units ("RSUs"). A reconciliation of the denominators of the basic and diluted EPS calculations follows (in thousands, except per share data):

	Three Months Ended

For the three months ended March 31, 2019 and 2018, 164,000 and 20,000, respectively, of our RSUs were not included in the diluted EPS calculations because their inclusion would have been anti-dilutive. These share-based awards could be dilutive in the future.

5. Debt, Inventory Financing Facility, Finance Leases and Other Financing Obligations

Debt

Our long-term debt consists of the following (in thousands):

	March 31, 2019	December 31, 2018
Senior revolving credit facility	\$ —	\$ —
Accounts receivable securitization financing facility	112,000	194,000
Finance leases and other financing obligations	2,388	2,920
Total	114,388	196,920
Less: current portion of long-term debt	(1,161)	(1,395)
Long-term debt	<u>\$ 113,227</u>	<u>\$ 195,525</u>

Our senior revolving credit facility ("revolving facility") has an aggregate U.S. dollar equivalent maximum borrowing amount of \$350,000,000, including a maximum borrowing capacity that may be used for borrowing in certain foreign currencies of \$50,000,000, and matures on June 23, 2021.

Our accounts receivable securitization financing facility (the "ABS facility") has a maximum aggregate borrowing availability of \$250,000,000, and matures on June 23, 2021. While the ABS facility has a stated maximum amount, the actual availability under the ABS facility is limited by the quantity and quality of the underlying accounts receivable. As of March 31, 2019, qualified receivables were sufficient to permit access to the full \$250,000,000 facility amount, of which \$112,000,000 was outstanding.

Our consolidated debt balance that can be outstanding at the end of any fiscal quarter under our revolving facility and our ABS facility is limited by certain financial covenants, particularly a maximum leverage ratio. The maximum leverage ratio is calculated as aggregate debt outstanding divided by the sum of our trailing twelve month net earnings (loss) plus (i) interest expense, excluding non-cash imputed interest on our inventory financing facility, (ii) income tax expense (benefit), (iii) depreciation and amortization, (iv) non-cash stock-based compensation, (v) extraordinary or non-recurring non-cash losses or expenses and (vi) certain cash restructuring and acquisition-related charges and synergies, not to exceed a specified cap ("adjusted earnings"). The maximum leverage ratio permitted under the facilities is currently 3.0 times our trailing twelve-month adjusted earnings. A significant drop in our adjusted earnings would limit the amount of indebtedness that could be outstanding at the end of any fiscal quarter to a level that would be below our consolidated maximum facility amount. Based on our maximum leverage ratio as of March 31, 2019, our aggregate debt balance that could have been outstanding under our revolving facility and our ABS facility was the full amount of the maximum borrowing capacity of \$600,000,000.

Inventory Financing Facility

Our inventory financing facility has a maximum borrowing capacity of \$400,000,000, of which \$260,160,000 was outstanding at March 31, 2019. The inventory financing facility matures on June 23, 2021. If balances are not paid within stated vendor terms, they will accrue interest at prime plus 1.25%. Amounts outstanding under this facility are classified separately as accounts payable – inventory financing facility in the accompanying consolidated balance sheets.

Finance Lease and Other Financing Obligations

Our finance lease obligations totaled \$2,388,000 and \$2,920,000 as of March 31, 2019 and December 31, 2018, respectively.

The current and long-term portions of our finance leases are included in the current and long-term portions of long-term debt in the table above and in our consolidated balance sheets as of March 31, 2019 and December 31, 2018. Further, see Note 2 for additional information.

6. Restricted Cash

Amounts included in restricted cash represent those required to be set aside by a contractual agreement with a lessor related to certain leased office space in foreign jurisdictions. The following table provides a reconciliation of cash, cash equivalents and restricted cash reported within the balance sheets that sum to the total of the same such amounts shown in the statements of cash flows for the three months ended March 31, 2019 and 2018 (in thousands):

	March 31, 2019	December 31, 2018
Cash and cash equivalents	\$ 124,831	\$ 142,655
Restricted cash included in other current assets	8	8
Restricted cash included in other non-current assets	1,627	1,630
Total cash, cash equivalents and restricted cash shown in the statement of cash flows	<u>\$ 126,466</u>	<u>\$ 144,293</u>
	March 31, 2018	December 31, 2017
Cash and cash equivalents	\$ 100,237	\$ 105,831
Restricted cash included in other current assets	10	46
Restricted cash included in other non-current assets	1,604	1,568
Total cash, cash equivalents and restricted cash shown in the statement of cash flows	<u>\$ 101,851</u>	<u>\$ 107,445</u>

7. Stock-Based Compensation

We recorded the following pre-tax amounts in selling and administrative expenses for stock-based compensation, by operating segment, in the accompanying consolidated financial statements (in thousands):

	Three Months Ended March 31,	
	2019	2018
North America	\$ 3,123	\$ 2,390
EMEA	870	690
APAC	122	104
Total Consolidated	<u>\$ 4,115</u>	<u>\$ 3,184</u>

As of March 31, 2019, total compensation cost related to nonvested RSUs not yet recognized is \$36,742,000, which is expected to be recognized over the next 1.84 years on a weighted-average basis.

The following table summarizes our RSU activity during the three months ended March 31, 2019:

	<u>Number</u>	<u>Weighted Average Grant Date Fair Value</u>	<u>Fair Value</u>
Nonvested at January 1, 2019	1,020,930	\$ 36.10	
Granted(a)	326,868	57.52	
Vested, including shares withheld to cover taxes	(387,406)	33.90	<u>\$ 13,133,063</u> (b)
Forfeited	(7,888)	40.94	
Nonvested at March 31, 2019(a)	<u>952,504</u>	44.30	<u>\$ 52,444,870</u> (c)

- (a) Includes 88,509 RSUs subject to remaining performance conditions. The number of RSUs subject to performance conditions are based on the Company achieving 97% of its 2019 targeted financial results. The number of RSUs ultimately awarded under the performance-based RSUs varies based on actual achieved financial results for 2019.
- (b) The aggregate fair value of vested RSUs represents the total pre-tax fair value, based on the closing stock price on the day of vesting, which would have been received by holders of RSUs had all such holders sold their underlying shares on that date.
- (c) The aggregate fair value of the nonvested RSUs and the RSUs expected to vest represents the total pre-tax fair value, based on our closing stock price of \$55.06 as of March 29, 2019 (the last trading day of the quarter), which would have been received by holders of RSUs had all such holders sold their underlying shares on that date.

8. Income Taxes

Our effective tax rate for the three months ended March 31, 2019 and 2018 was 23.5% and 25.9%, respectively. For the three months ended March 31, 2019, our effective tax rate was higher than the United States federal statutory rate of 21.0% due primarily to state income taxes, net of federal benefit, and higher taxes on earnings in foreign jurisdictions partially offset by tax benefits on the settlement of employee share-based awards and the recognition of tax benefits related to research and development activities. For the three months ended March 31, 2018, our effective tax rate was higher than the United States federal statutory rate of 21.0% due primarily to state income taxes net of federal benefit.

As of March 31, 2019 and December 31, 2018, we had approximately \$7,423,000 and \$6,849,000, respectively, of unrecognized tax benefits. Of these amounts, approximately \$373,000 and \$313,000, respectively, related to accrued interest. In the future, if recognized, the liability associated with uncertain tax positions would affect our effective tax rate. We do not believe there will be any changes over the next 12 months that would have a material effect on our effective tax rate.

Several of our subsidiaries are currently under audit for tax years 2012 through 2017. Although the timing of the resolutions and/or closures of audits is highly uncertain, it is reasonably possible that the examination phase of these audits may be concluded within the next 12 months, which could increase or decrease the balance of our gross unrecognized tax benefits. However, based on the status of the various examinations in multiple jurisdictions, an estimate of the range of reasonably possible outcomes cannot be made at this time, but the estimated effect on our income tax expense and net earnings is not expected to be significant.

9. Share Repurchase Program

On February 13, 2018, our Board of Directors authorized the repurchase of up to \$50,000,000 of our common stock. Our share repurchases will be made on the open market, subject to Rule 10b-18 or in privately negotiated transactions, through block trades, through 10b5-1 plans or otherwise, at management's discretion. The amount of shares purchased and the timing of the purchases will be based on market conditions, working capital requirements, general business conditions and other factors. We intend to retire the repurchased shares.

During the three months ended March 31, 2019, we did not repurchase any shares of our common stock. During the comparative three months ended March 31, 2018, we repurchased 221,256 shares of our common stock on the open market at a total cost of approximately \$7,679,000 (an average price of \$34.71 per share). All shares repurchased were retired.

10. Commitments and Contingencies

Contractual

In the ordinary course of business, we issue performance bonds to secure our performance under certain contracts or state tax requirements. As of March 31, 2019, we had approximately \$3,939,000 of performance bonds outstanding. These bonds are issued on our behalf by a surety company on an unsecured basis; however, if the surety company is ever required to pay out under the bonds, we have contractually agreed to reimburse the surety company.

Management believes that payments, if any, related to these performance bonds are not probable at March 31, 2019. Accordingly, we have not accrued any liabilities related to such performance bonds in our consolidated financial statements.

Employment Contracts and Severance Plans

We have employment contracts with, and severance plans covering, certain officers and management teammates under which severance payments would become payable in the event of specified terminations without cause or terminations under certain circumstances after a change in control. In addition, vesting of outstanding nonvested RSUs would accelerate following a change in control. If severance payments under the current employment agreements or plan payments were to become payable, the severance payments would generally range from three to twenty-four months of salary.

Indemnifications

From time to time, in the ordinary course of business, we enter into contractual arrangements under which we agree to indemnify either our clients or third-party service providers from certain losses incurred relating to services performed on our behalf or for losses arising from defined events, which may include litigation or claims relating to past performance. These arrangements include, but are not limited to, the indemnification of our clients for certain claims arising out of our performance under our sales contracts, the indemnification of our landlords for certain claims arising from our use of leased facilities and the indemnification of the lenders that provide our credit facilities for certain claims arising from their extension of credit to us. Such indemnification obligations may not be subject to maximum loss clauses.

Management believes that payments, if any, related to these indemnifications are not probable at March 31, 2019. Accordingly, we have not accrued any liabilities related to such indemnifications in our consolidated financial statements.

INSIGHT ENTERPRISES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)
(unaudited)

We have entered into separate indemnification agreements with certain of our executive officers and with each of our directors. These agreements require us, among other requirements, to indemnify such officers and directors against expenses (including attorneys' fees), judgments and settlements incurred by such individual in connection with any action arising out of such individual's status or service as our executive officer or director (subject to exceptions such as where the individual failed to act in good faith or in a manner the individual reasonably believed to be in, or not opposed to, the best interests of the Company) and to advance expenses incurred by such individual with respect to which such individual may be entitled to indemnification by us. There are no pending legal proceedings that involve the indemnification of any of the Company's directors or officers.

Contingencies Related to Third-Party Review

From time to time, we are subject to potential claims and assessments from third parties. We are also subject to various governmental, client and partner audits. We continually assess whether or not such claims have merit and warrant accrual. Where appropriate, we accrue estimates of anticipated liabilities in the consolidated financial statements. Such estimates are subject to change and may affect our results of operations and our cash flows.

Legal Proceedings

From time to time, we are party to various legal proceedings arising in the ordinary course of business, including preference payment claims asserted in client bankruptcy proceedings, indemnification claims, claims of alleged infringement of patents, trademarks, copyrights and other intellectual property rights, claims of alleged non-compliance with contract provisions and claims related to alleged violations of laws and regulations. We regularly evaluate the status of the legal proceedings in which we are involved to assess whether a loss is probable or there is a reasonable possibility that a loss, or an additional loss, may have been incurred and determine if accruals are appropriate. If accruals are not appropriate, we further evaluate each legal proceeding to assess whether an estimate of possible loss or range of possible loss can be made for disclosure. Although litigation is inherently unpredictable, we believe that we have adequate provisions for any probable and estimable losses. It is possible, nevertheless, that our consolidated financial position, results of operations or liquidity could be materially and adversely affected in any particular period by the resolution of a legal proceeding. Legal expenses related to defense, negotiations, settlements, rulings and advice of outside legal counsel are expensed as incurred.

The Company is not involved in any pending or threatened legal proceedings that it believes would reasonably be expected to have a material adverse effect on its business, financial condition or results of operations.

11. Segment Information

We operate in three reportable geographic operating segments: North America; EMEA; and APAC. Our offerings in North America and certain countries in EMEA and APAC include IT hardware, software and services. Our offerings in the remainder of our EMEA and APAC segments are largely software and certain software-related services.

The following table summarizes net sales by offering for North America, EMEA and APAC including the effect of the reclassifications on the previously reported net sales by sales mix amounts for the three months ended March 31, 2019 and 2018 (in thousands):

All significant intercompany transactions are eliminated upon consolidation, and there are no differences between the accounting policies used to measure profit and loss for our segments or on a consolidated basis. Net sales are defined as net sales to external clients. None of our clients exceeded ten percent of consolidated net sales for the three months ended March 31, 2019 or 2018.

A portion of our operating segments' selling and administrative expenses arise from shared services and infrastructure that we have historically provided to them in order to realize economies of scale and to use resources efficiently. These expenses, collectively identified as corporate charges, include senior management expenses, internal audit, legal, tax, insurance services, treasury and other corporate infrastructure expenses. Charges are allocated to our operating segments, and the allocations have been determined on a basis that we considered to be a reasonable reflection of the utilization of services provided to or benefits received by the operating segments.

The following tables present our results of operations by reportable operating segment for the periods indicated (in thousands):

12. Acquisition

Effective August 1, 2018, we acquired 100 percent of the issued and outstanding shares of Cardinal, a digital solutions provider based in Cincinnati, Ohio, with offices across the Midwest and Southeast United States, for a cash purchase price, net of cash acquired, of approximately \$78,400,000, including final working capital and tax gross up adjustments. Cardinal provides technology solutions to digitally transform organizations through their expertise in mobile applications development, Internet of Things and cloud enabled business intelligence. We believe that this acquisition strengthens our services capabilities and will bring value to our clients within our digital innovation services solution offering.

The fair value of net assets acquired was approximately \$42,360,000, including \$27,540,000 of identifiable intangible assets, consisting primarily of customer relationships that will be amortized using the straight line method over the estimated economic life of ten years. The preliminary purchase price was allocated using the information currently available. We finalized the fair value assumptions for identifiable intangible assets acquired in the fourth quarter of 2018. Goodwill acquired approximated \$36,040,000 which was recorded in our North America operating segment. The goodwill is tax deductible. The working capital adjustment in the amount of \$762,000 was finalized in the fourth quarter of 2018 and paid in January 2019. Additionally, we finalized the purchase price allocation when the tax gross up adjustment of \$2,600,000 was agreed upon in April 2019. This resulted in a reduction of the previously recorded purchase price of \$400,000.

We consolidated the results of operations for Cardinal within our North America operating segment beginning on August 1, 2018, the effective date of the acquisition. Our historical results would not have been materially affected by the acquisition of Cardinal and, accordingly, we have not presented pro forma information as if the acquisition had been completed at the beginning of each period presented in our statement of operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the consolidated financial statements and the related notes that appear elsewhere in this Quarterly Report on Form 10-Q. We refer to our customers as "clients," our suppliers as "partners" and our employees as "teammates."

Quarterly Overview

Today, every business is a technology business. We empower organizations of all sizes with Intelligent Technology Solutions™ and services to maximize the business value of IT in North America; Europe, the Middle East and Africa ("EMEA"); and Asia-Pacific ("APAC"). As a Fortune 500-ranked global provider of digital innovation, cloud/data center transformation, connected workforce, and supply chain optimization solutions, we help clients innovate and optimize their operations to run smarter. Our offerings in North America and certain countries in EMEA and APAC include hardware, software and services. Our offerings in the remainder of our EMEA and APAC segments are largely software and certain software-related services.

On a consolidated basis, for the three months ended March 31, 2019:

- Net sales of \$1.69 billion decreased 3% compared to the three months ended March 31, 2018. This change reflects a decrease in hardware net sales to large enterprise clients offset by growth in our software and services net sales. Excluding the effects of fluctuating foreign currency exchange rate net sales decreased 1% compared to the first quarter of 2018.
- Gross profit of \$248.5 million increased 3% compared to the three months ended March 31, 2018, up 6% year over year excluding the effects of fluctuating foreign currency exchange rates.
- Gross margin improved approximately 90 basis points to 14.7% of net sales in the three months ended March 31, 2019. This increase reflects a change in sales mix towards higher margin net sales categories, including Insight delivered services and cloud solutions compared to the same period in the prior year.
- Earnings from operations increased 13% year over year to \$57.0 million in the first quarter of 2019 compared to \$50.4 million in the first quarter of 2018. Excluding the effects of fluctuating foreign currency exchange rates, consolidated earnings from operations increased 14% year over year.
- Net earnings and diluted earnings per share were \$39.3 million and \$1.09, respectively, for the first quarter of 2019. This compares to net earnings of \$33.0 million and diluted earnings per share of \$0.91 for the first quarter of 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Throughout the "Quarterly Overview" and "Results of Operations" sections of this "Management's Discussion and Analysis of Financial Condition and Results of Operations," we refer to changes in net sales, gross profit, selling and administrative expenses and earnings from operations on a consolidated basis and in North America, EMEA and APAC excluding the effects of fluctuating foreign currency exchange rates. In computing the changes in amounts and percentages, we compare the current period amount as translated into U.S. dollars under the applicable accounting standards to the prior period amount in local currency translated into U.S. dollars utilizing the weighted average translation rate for the current period.

Details about segment results of operations can be found in Note 11 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Our discussion and analysis of financial condition and results of operations is intended to assist in the understanding of our consolidated financial statements, including the changes in certain key items in those consolidated financial statements from period to period and the primary factors that contributed to those changes, as well as how certain critical accounting estimates affect our consolidated financial statements.

Critical Accounting Estimates

Our consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles ("GAAP"). For a summary of significant accounting policies, see Note 1 to the Consolidated Financial Statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2018. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, net sales and expenses. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results, however, may differ from estimates we have made. Members of our senior management have discussed the critical accounting estimates and related disclosures with the Audit Committee of our Board of Directors.

There have been no changes to the items disclosed as critical accounting estimates in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2018.

Results of Operations

The following table sets forth certain financial data as a percentage of net sales for the three months ended March 31, 2019 and 2018:

	Three Months Ended March 31,	
	2019	2018
Net sales	100.0%	100.0%
Costs of goods sold	85.3	86.2
Gross profit	14.7	13.8
Selling and administrative expenses	11.3	10.8
Severance and restructuring expenses	—	0.1
Earnings from operations	3.4	2.9
Non-operating expense, net	0.3	0.3
Earnings before income taxes	3.1	2.6
Income tax expense	0.8	0.7
Net earnings	2.3%	1.9%

We experience some seasonal trends in our sales of IT hardware, software and services. Software sales are typically seasonally higher in our second quarter. Business clients, particularly larger enterprise businesses in the United States, tend to spend more in our fourth quarter and less in our first quarter. Sales to the federal government in the United States are often stronger in our third quarter, while sales in the state and local government and education markets are stronger in our second quarter. Sales to public sector clients in the United Kingdom are often stronger in our first quarter. These trends create overall seasonality in our consolidated results such that net sales and profitability are expected to be higher in the second and fourth quarters of the year.

Our gross profit across the business is, and will continue to be, impacted by partner incentives, which can change significantly in the amounts made available and the related product or services sales being incentivized by the partner. Incentives from our largest partners are significant and changes in the incentives could impact our results of operations to the extent we are unable to adapt our sales strategies to optimize performance under the revised programs.

Net Sales. Net sales decreased 3% year to year to \$1.69 billion compared to the three months ended March 31, 2018. Our net sales by operating segment were as follows for the three months ended March 31, 2019 and 2018 (dollars in thousands):

	Three Months Ended March 31,		%
	2019	2018	
North America	\$ 1,242,441	\$ 1,278,380	(3%)
EMEA	390,175	407,134	(4%)
APAC	52,850	56,980	(7%)
Consolidated	\$ 1,685,466	\$ 1,742,494	(3%)

Net sales in North America decreased 3%, or \$35.9 million, for the three months ended March 31, 2019 compared to the three months ended March 31, 2018, primarily driven by declines in hardware net sales to large enterprise clients. Net sales in EMEA decreased 4%, or \$17.0 million, in the first quarter of 2019 compared to the first quarter of 2018. Excluding the effects of fluctuating foreign currency exchange rates net sales in EMEA increased 2%, year over year. Net sales in APAC decreased 7%, or \$4.1 million, in the first quarter of 2019 compared to the first quarter of 2018. Excluding the effects of fluctuating foreign currency exchange rates net sales in APAC increased 1%, year over year.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Our net sales by offering category for North America for the three months ended March 31, 2019 and the three months ended March 31, 2018 were as follows (dollars in thousands):

Sales Mix	Three Months Ended		%
	March 31,		
	2019	2018	Change
Hardware	\$ 748,337	\$ 873,341	(14%)
Software	322,079	261,060	23%
Services	<u>172,025</u>	<u>143,979</u>	19%
	<u>\$ 1,242,441</u>	<u>\$ 1,278,380</u>	(3%)

In North America, net sales of software and services were up 23% and 19%, respectively, year over year, while net sales of hardware declined 14% year to year. The net changes year to year were the result of the following:

- The decrease in hardware net sales was due primarily to lower sales of client devices, storage and networking solutions to large enterprise clients.
- The increase in the software category was primarily the result of a significant transaction during the current quarter with a large enterprise client with no comparable transaction in the same quarter in prior year.
- The increase in services net sales was due to higher sales of cloud solutions and an increase in Insight delivered services, attributable to our acquisition of Cardinal.

Our net sales by offering category for EMEA for the three months ended March 31, 2019 and the three months ended March 31, 2018 were as follows (dollars in thousands):

Sales Mix	Three Months Ended		%
	March 31,		
	2019	2018	Change
Hardware	\$ 171,525	\$ 187,010	(8%)
Software	183,148	190,202	(4%)
Services	<u>35,502</u>	<u>29,922</u>	19%
	<u>\$ 390,175</u>	<u>\$ 407,134</u>	(4%)

In EMEA, net sales of hardware and software declined 8% and 4%, respectively, year to year, while net sales of services increased 19% year over year. The net changes year to year were the result of the following:

- The decrease in hardware net sales was due primarily to lower volume sales of networking solutions to public sector clients.
- The decrease in software net sales was due to continued client migration of software applications to cloud solutions which are recorded net in services net sales.
- The increase in services net sales was due primarily to a higher volume of software maintenance and cloud solutions, and a higher volume of Insight delivered services.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Our net sales by offering category for APAC for the three months ended March 31, 2019 and the three months ended March 31, 2018 were as follows (dollars in thousands):

Sales Mix	Three Months Ended March 31,		%
	2019	2018	
Hardware	\$ 6,518	\$ 7,160	(9%)
Software	35,065	39,019	(10%)
Services	11,267	10,801	4%
	<u>\$ 52,850</u>	<u>\$ 56,980</u>	(7%)

In APAC, net sales of hardware and software declined 9% and 10%, respectively, year to year, partially offset by an increase in services net sales of 4%, year over year. The net changes year to year were the result of the following:

- The decrease in hardware and software net sales was due primarily to lower volume with enterprise and public sector clients.
- The increase in services net sales was due to higher sales of cloud solutions and an increase in Insight delivered services.

The percentage of net sales by category for North America, EMEA and APAC were as follows for the three months ended March 31, 2019 and the three months ended March 31, 2018:

Sales Mix	North America Three Months Ended March 31,		EMEA Three Months Ended March 31,		APAC Three Months Ended March 31,	
	2019	2018	2019	2018	2019	2018
Hardware	60%	68%	44%	46%	12%	13%
Software	26%	21%	47%	47%	67%	68%
Services	14%	11%	9%	7%	21%	19%
	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>	<u>100%</u>

Gross Profit. Gross profit increased 3%, or \$8.2 million, in the three months ended March 31, 2019, compared to the three months ended March 31, 2018, with gross margin increasing approximately 90 basis points to 14.7% for the three months ended March 31, 2019 compared to 13.8% for the three months ended March 31, 2018. Our gross profit and gross profit as a percentage of net sales by operating segment were as follows for the three months ended March 31, 2019 and 2018 (dollars in thousands):

	Three Months Ended March 31,		%	%
	2019	2018		
North America	\$ 182,607	\$ 175,371	14.7%	13.7%
EMEA	56,983	56,050	14.6%	13.8%
APAC	8,882	8,842	16.8%	15.5%
Consolidated	<u>\$ 248,472</u>	<u>\$ 240,263</u>	14.7%	13.8%

North America's gross profit for the three months ended March 31, 2019 increased \$7.2 million, or 4%, compared to the three months ended March 31, 2018. As a percentage of net sales, gross margin increased approximately 100 basis points to 14.7% for the first quarter of 2019.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

The year over year improvement in gross margin was primarily attributable to the following:

- An increase in higher margin services net sales, which contributed 152 basis points of the margin expansion, partially offset by a net decrease in product margin, which includes partner funding and freight, of 54 basis points.
- The increase in margin from services net sales during the current quarter resulted from a higher volume of Insight delivered services and a higher volume of cloud solutions that are recorded net.
- The decrease in product margin is primarily the result of a reduction in partner funding due to lower hardware sales in the current quarter compared to the same period in the prior year.

EMEA's gross profit for the three months ended March 31, 2018 increased \$933,000, or 2% (9% excluding the effects of fluctuating foreign currency exchange rates), compared to the three months ended March 31, 2018. As a percentage of net sales, gross margin increased approximately 80 basis points, year over year. The year over year improvement in gross margin was primarily attributable to an increase in higher margin services net sales, which contributed 138 basis points of the margin expansion, partially offset by a net decrease in product margin, which includes partner funding and freight, of 55 basis points.

APAC's gross profit for the three months March 31, 2019 remained flat compared to the three months ended March 31, 2018. As a percentage of net sales, gross margin increased approximately 130 basis points, year over year. The increase in gross margin in the first quarter of 2019 compared to the first quarter of 2018 was primarily due to an increase in mix of sales of software maintenance and cloud solutions recorded net and higher gross profits from Insight delivered services.

Operating Expenses.

Selling and Administrative Expenses. Selling and administrative expenses increased \$2.9 million, or 2%, for the three months ended March 31, 2019 compared to the three months ended March 31, 2018. Our selling and administrative expenses by major expense type for the three months ended March 31, 2019 and 2018 were as follows (dollars in thousands):

	Three Months Ended March 31,	
	2019	2018
Personnel costs, including teammate benefits	\$ 150,491	\$ 147,836
Depreciation and amortization	8,867	9,044
Facility expenses	6,663	6,591
Travel and entertainment	6,246	6,128
Legal and professional fees	3,942	4,033
Marketing	2,322	2,644
Other	12,532	11,904
Total	\$ 191,063	\$ 188,180

Selling and administrative expenses increased approximately 50 basis points as a percentage of net sales in the first quarter of 2019 compared to the first quarter of 2018. The overall net increase in selling and administrative expenses reflects a \$2.7 million increase in personnel costs, including teammate benefits expenses primarily due to increased headcount, including the acquisition of Cardinal, and increased variable compensation resulting from increased gross profit in the first quarter of 2019 compared to the first quarter of 2018.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Severance and Restructuring Expenses. During the three months ended March 31, 2019, we recorded severance expense, net of adjustments, of approximately \$370,000. The charges in all three operating segments primarily related to a realignment of certain roles and responsibilities. Current period charges were partially offset by adjustments for changes in estimates of previous accruals as cash payments were made. Comparatively, during the three months ended March 31, 2018, North America, EMEA and APAC recorded severance expense, net of adjustments, of approximately \$443,000, \$1.1 million and \$127,000, respectively.

Non-Operating (Income) Expense.

Interest Income. Interest income for the three months ended March 31, 2019 and 2018 was generated from interest earned on cash and cash equivalent bank balances. The increase in interest income year over year was primarily due to higher average interest-bearing cash and cash equivalent balances and to higher interest rates during the three months ended March 31, 2019 compared to the three months ended March 31, 2018.

Interest Expense. Interest expense primarily relates to borrowings under our financing facilities and imputed interest under our inventory financing facility. Interest expense for the three months ended March 31, 2019 decreased 20%, or \$1.2 million, compared to the three months ended March 31, 2018. The decrease was due primarily to lower average daily balances on our debt facilities in the first quarter of 2019 partially offset by higher interest rates. Imputed interest under our inventory financing facility was \$3.0 million for the three months ended March 31, 2019 compared to \$2.5 million for the three months ended March 31, 2018. The increase was a result of a higher average incremental borrowing rate used to compute the imputed interest amounts during the first quarter of 2019. For a description of our various financing facilities, see Note 5 to our Consolidated Financial Statements in Part I, Item 1 of this report.

Net Foreign Currency Exchange Gains/Losses. These gains/losses result from foreign currency transactions, including foreign currency derivative contracts and intercompany balances that are not considered long-term in nature. The change in net foreign currency exchange gains/losses is due primarily to the underlying changes in the applicable exchange rates, partially mitigated by our use of foreign exchange forward contracts to offset the effects of fluctuations in foreign currencies on certain of our non-functional currency assets and liabilities.

Other Expense, Net. Other expense, net, consists primarily of bank fees associated with our cash management activities.

Income Tax Expense. Our effective tax rate of 23.5% for the three months ended March 31, 2019 was lower than our effective tax rate of 25.9% for the three months ended March 31, 2018 due primarily to an increase in tax benefits on the settlement of employee share-based awards and the recognition of tax benefits related to research and development activities for the three months ended March 31, 2019 compared to the three months ended March 31, 2018.

Liquidity and Capital Resources

The following table sets forth certain consolidated cash flow information for the three months ended March 31, 2019 and 2018 (in thousands):

	Three Months Ended	
	March 31,	
	2019	2018
Net cash provided by operating activities	\$ 121,913	\$ 150,745
Net cash used in investing activities	(6,114)	(5,044)
Net cash used in financing activities	(132,640)	(153,232)
Foreign currency exchange effect on cash, cash equivalent and restricted cash balances	(986)	1,937
Increase in cash, cash equivalents and restricted cash	(17,827)	(5,594)
Cash, cash equivalents and restricted cash at beginning of period	144,293	107,445
Cash, cash equivalents and restricted cash at end of period	<u>\$ 126,466</u>	<u>\$ 101,851</u>

Cash and Cash Flow

- Our primary uses of cash during the three months ended March 31, 2019 were to pay down our debt balances and for capital expenditures, as well as funding our working capital requirements.
- Operating activities provided \$121.9 million in cash during the three months ended March 31, 2019, compared to \$150.7 million during the three months ended March 31, 2018.
- We had net repayments under our inventory financing facility of \$44.0 million during the three months ended March 31, 2019, compared to net repayments of \$91.4 million during the three months ended March 31, 2018.
- We had combined net repayments under our revolving facility and ABS facility that decreased our outstanding long-term debt by \$82.0 million.
- Capital expenditures were \$5.4 million in the three months ended March 31, 2019.
- Cash, cash equivalents and restricted cash balances in the three months ended March 31, 2019 were negatively affected by \$1.0 million, while the balances in the three months ended March, 31 2018 were positively affected by \$1.9 million, as a result of foreign currency exchange rates.

We expect that cash flows from operations, together with the funds available under our financing facilities, will be adequate to support our presently anticipated cash and working capital requirements for operations over the next 12 months.

Net cash provided by operating activities

- Cash flow from operating activities in the first three months of 2019 was \$121.9 million compared to \$150.7 million in the first three months of 2018.
- The decrease in accounts receivable and accounts payable reflects our continued enhanced focus on collection of receivables and optimization of working capital.
- The significant increases in both other assets and accrued expenses and other liabilities for the three months ended March 31, 2019 resulted from a single significant transaction in 2019 with no comparable activity in the prior year.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

Our consolidated cash flow operating metrics were as follows:

	Three Months Ended	
	March 31,	
	2019	2018
Days sales outstanding in ending accounts receivable ("DSOs") (a)	92	91
Days inventory outstanding ("DIOs") (b)	11	12
Days purchases outstanding in ending accounts payable ("DPOs") (c)	(73)	(67)
Cash conversion cycle (days) (d)	<u>30</u>	<u>36</u>

- (a) Calculated as the balance of current accounts receivable, net at the end of the quarter divided by daily net sales. Daily net sales is calculated as net sales for the quarter divided by 90 days.
- (b) Calculated as average inventories (excluding inventories not available for sale) divided by daily costs of goods sold. Average inventories is calculated as the sum of the balances of inventories at the beginning of the quarter plus inventories at the end of the quarter divided by two. Daily costs of goods sold is calculated as costs of goods sold for the quarter divided by 90 days.
- (c) Calculated as the sum of the balances of accounts payable – trade and accounts payable – inventory financing facility at the end of the quarter divided by daily costs of goods sold. Daily costs of goods sold is calculated as costs of goods sold for the quarter divided by 90 days.
- (d) Calculated as DSOs plus DIOs, less DPOs.

Our cash conversion cycle was 30 days in the first quarter of 2019, down six days from the first quarter of 2018.

- The decrease resulted from the net effect of a one day increase in DSOs and a six day increase in DPOs due to the relative timing of client receipts and supplier payments during the respective quarters.
- This was partially offset by a one day decrease in DIO due to delivering inventory against client specific engagements and an overall focus on minimizing inventory on hand.

We expect that cash flow from operations will be used, at least partially, to fund working capital as we typically pay our partners on average terms that are shorter than the average terms we grant to our clients to take advantage of supplier discounts. We intend to use cash generated in the remainder of 2019 in excess of working capital needs to pay down our debt balances, to repurchase shares of our common stock and to support our capital expenditures for the year. We also may use cash to fund potential acquisitions to add select capabilities within our current geographic operating segments.

Net cash used in investing activities

- Capital expenditures were \$5.4 million and \$5.0 million for the three months ended March 31, 2019 and 2018, respectively.
- We expect capital expenditures for the full year 2019 to be between \$20.0 million and \$25.0 million, primarily for technology-related upgrade projects.

Net cash used in financing activities

- During the three months ended March 31, 2019, we had net combined repayments under our revolving facility and our ABS facility that decreased our outstanding long-term debt balance by \$82.0 million. Comparatively, during the three months ended March 31, 2018, we had net combined repayments under our revolving credit facility and our ABS facility that decreased our outstanding long-term debt balance by \$49.8 million, including scheduled amortization payments under our TLA.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

- We had net repayments under our inventory financing facility of \$44.0 million during the three months ended March 31, 2019 compared to \$91.4 million during the three months ended March 31, 2018.
- During the three months ended March 31, 2019 we did not repurchase any shares of our common stock. We repurchased an aggregate of \$7.7 million of our common stock under a previously announced repurchase program during the three months ended March 31, 2018.

Financing Facilities

Our consolidated debt balance that can be outstanding at the end of any fiscal quarter under our revolving facility and our ABS facility is limited by certain financial covenants, particularly a maximum leverage ratio.

- The maximum leverage ratio is calculated as aggregate debt outstanding divided by the sum of the Company's trailing twelve month net earnings (loss) plus (i) interest expense, excluding non-cash imputed interest on our inventory financing facility, (ii) income tax expense (benefit), (iii) depreciation and amortization, (iv) non-cash stock-based compensation, (v) extraordinary or non-recurring non-cash losses or expenses and (vi) certain cash restructuring and acquisition-related charges and synergies, not to exceed a specified cap ("adjusted earnings").
- The maximum leverage ratio permitted under the facilities is currently 3.0 times our trailing twelve-month adjusted earnings.
- A significant drop in the Company's adjusted earnings would limit the amount of indebtedness that could be outstanding at the end of any fiscal quarter to a level that would be below the Company's consolidated maximum facility amount. We anticipate that we will be in compliance with our maximum leverage ratio requirements over the next four quarters.
- Based on the maximum permitted leverage ratio as of March 31, 2019, the Company's debt balance that could have been outstanding under our revolving facility and ABS facility was the full amount of the maximum borrowing capacity of \$600.0 million, of which \$112.0 million was outstanding under the ABS facility and no amount was outstanding under our revolving facility at March 31, 2019.
 - While our ABS facility has a stated maximum amount, the actual availability under the ABS facility is limited by the quantity and quality of the underlying accounts receivable. As of March 31, 2019, qualified receivables were sufficient to permit access to the full \$250.0 million under the ABS facility.

Our debt balance as of March 31, 2019 was \$114.4 million, including our finance lease obligations for certain IT equipment and other financing obligations.

- Our objective is to pay our debt balances down while retaining adequate cash balances to meet overall business objectives.
- Our revolving facility and our ABS facility contain various covenants customary for transactions of this type, including limitations on the payment of dividends and the requirement that we comply with maximum leverage and minimum fixed charge ratio requirements, comply with a minimum receivable requirement and meet monthly, quarterly and annual reporting requirements.
 - If we fail to comply with these covenants, the lenders would be able to demand payment within a specified time period. At March 31, 2019, we were in compliance with all such covenants.

INSIGHT ENTERPRISES, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS (continued)

- The terms of the ABS facility identify various circumstances that would result in an "amortization event" under the facility. At March 31, 2019, no such "amortization event" had occurred.

We also have an agreement with a financial intermediary to facilitate the purchase of inventory from various suppliers under certain terms and conditions.

- These amounts are classified separately as accounts payable – inventory financing facility in our consolidated balance sheets.
- Our inventory financing facility has an aggregate availability for vendor purchases of \$400.0 million, of which \$260.2 million was outstanding at March 31, 2019.
- The inventory financing facility matures on June 23, 2021 and may be renewed under certain circumstances described in the agreement for successive 12-month periods.

Undistributed Foreign Earnings

Cash and cash equivalents held by foreign subsidiaries are generally subject to U.S. income taxation upon repatriation to the United States. As a result of the U.S. federal tax reform enacted in December 2017, all undistributed foreign earnings are deemed distributed. As of March 31, 2019, we had approximately \$106.9 million in cash and cash equivalents in certain of our foreign subsidiaries. As of March 31, 2019, the majority of our foreign cash resides in the Netherlands and Canada. Certain of these cash balances will be remitted to the United States by paying down intercompany payables generated in the ordinary course of business or through actual dividend distributions.

Off-Balance Sheet Arrangements

We have entered into off-balance sheet arrangements, which include indemnifications. The indemnifications are discussed in Note 10 to the Consolidated Financial Statements in Part I, Item 1 of this report and such discussion is incorporated by reference herein. We believe that none of our off-balance sheet arrangements have, or are reasonably likely to have, a material current or future effect on our business, financial condition or results of operations.

Recently Issued Accounting Standards

The information contained in Notes 1 and 2 to the Consolidated Financial Statements in Part I, Item 1 of this report concerning a description of recently issued accounting standards which affect or may affect our financial statements, including our expected dates of adoption and the estimated effects on our results of operations and financial condition, is incorporated by reference herein.

Contractual Obligations

There have been no material changes in our reported contractual obligations, as described under "Contractual Obligations" in "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources" in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2018.

INSIGHT ENTERPRISES, INC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in our reported market risks, as described in "Quantitative and Qualitative Disclosures About Market Risk" in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2018.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, as of the end of the period covered by this report, evaluated the effectiveness of our disclosure controls and procedures (as such term is defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) and determined that as of March 31, 2019 our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Change in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) in the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Inherent Limitations of Internal Control Over Financial Reporting

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Part II – OTHER INFORMATION

Item 1. Legal Proceedings.

For a discussion of legal proceedings, see “– Legal Proceedings” in Note 10 to the Consolidated Financial Statements in Part I, Item 1 of this report, which section is incorporated by reference herein.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A, “Risk Factors”, in our Annual Report on Form 10-K for the year ended December 31, 2018, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

There were no unregistered sales of equity securities during the three months ended March 31, 2019.

We have never paid a cash dividend on our common stock, and we currently do not intend to pay any cash dividends in the foreseeable future. Our revolving facility, our ABS facility and our inventory financing facility contain restrictions on the payment of cash dividends.

Issuer Purchases of Equity Securities

We did not repurchase shares of our common stock during the quarter ended March 31, 2019.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

Not applicable.
